

Products/Services

- Ammunition Bunker Fire Suppression Nozzles
- Deluge Valves
- Manufacture and Design of Tooling
- MJC (Multiple Jet Control)
- Pop Up Sprinklers – (Aircraft Hangars etc.)
- Rail Componentry
- Refurbishment
- Response Time Index Wind Test Tunnel
- Sub-Contract Machining and Fabrication
- Submarine Componentry

Administration Capabilities

- Project Management
- ISO 9001 Compliant
- Assembly, Packaging, Storage and Distribution
- LEAN Manufacturing Influenced

Manufacturing Capabilities

- Precision Multi Axis CNC Machining
- MIG and TIG Welding Fabrication
- Sheet Metal Work
- Oxy and Plasma Cutting
- Project Manage Foundry and Forge

Quality Accreditations and Awards

- ISO 9001:2008
- Recognised Partner to Defence
- Proven Design and Manufactured Solutions
- Commitment to LEAN principles

Testing Capabilities

- Function Testing
- Pneumatic Testing
- Hydrostatic Testing

Design Engineering Capabilities

- CAD Engineering Design
- CAD CAM Software
- Concept Development and Prototyping
- Standards Interpretation
- Maintenance and Rebuild Design

Key Customers/Projects

- Aircraft Hangar Fire Suppression - (Pop Up Foam Sprinklers) - Base Fire
- Aerospace Grade Parts - Kavanagh Balloons
- Custom Tooling - Sandvik
- Fire Suppression Hardware for Vehicle systems - Wormald/Tyco
- Bogie Rail Componentry – UGL Limited

Key Partnerships

- Tier 2 Australian Defence Force Supplier and Manufacturer
- Okuma Australia
- Sandvik
- SolidCAM
- InterCAD
- Member of Hunternet
- Member of FPAA - Fire Protection Association Australia
- Member of AMTIL - Australian Manufacturing Technology Institute Limited
- Member of WTIA – Welding Technology Institute of Australia
